

SMALLWAR
SKaGeN

technical rider (with transport - not overseas)

general:

- setup at 10
- 2 technicians plz
- performance duration is 1h05min
- 1 van Peugeot Boxer 1-CMZ-219 (parking place please)

light:

- 3 profiles with shutters (2x lee202)
 - 1 profiles with iris in frontbridge (lee202)
 - 9 PC's with barndoors (lee202)
 - 3 PC's in frontbridge
- We bring our own lightcomputer DMX512 5pin

video:

We bring a videoprojector, LCDscreen, projectionscreen, computer en the necessary (network) cabling. The projection is retro on the floor and needs 4,7m behind the screen. On the little bed we put our 47"LCDscreen.

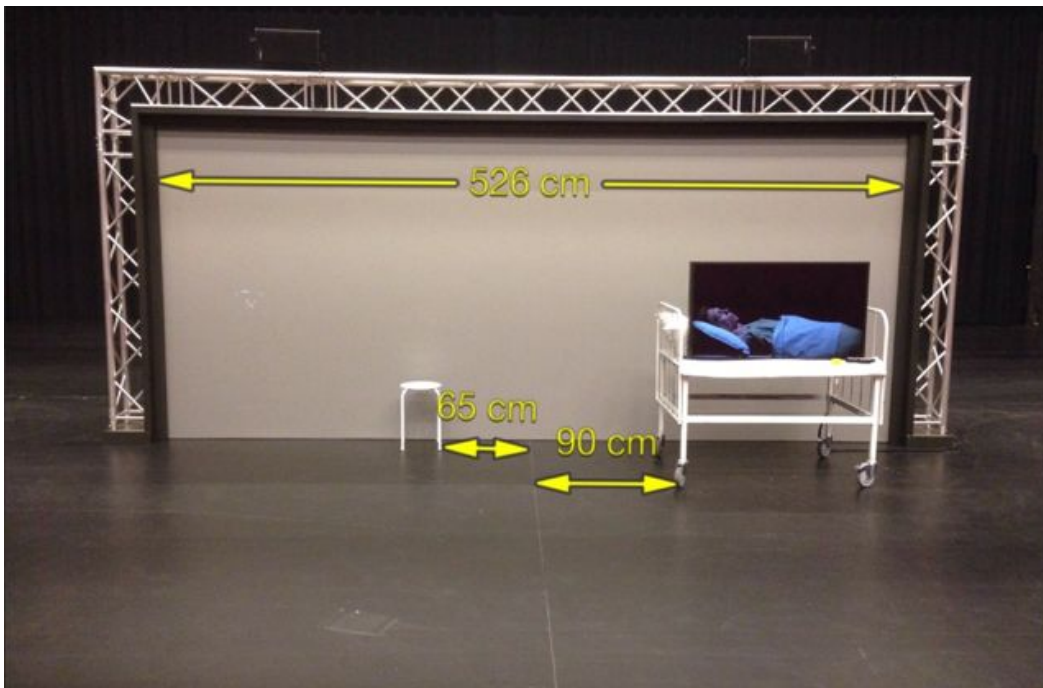

audio:

LR FOH with sub, downstage.

In addition to your FOH we place 2 8"-speakers (and amps) on top off the truss.

We bring 1 IEM en 1 wireless mic. *freq mic: between 482 and 554 MHz - freq iem: between 863 and 865 MHz*

We bring our own mixer.

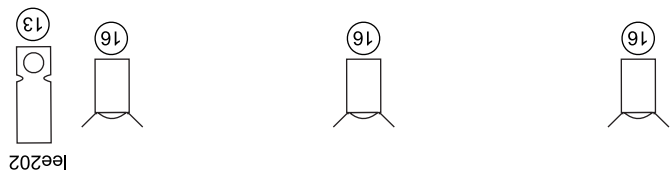

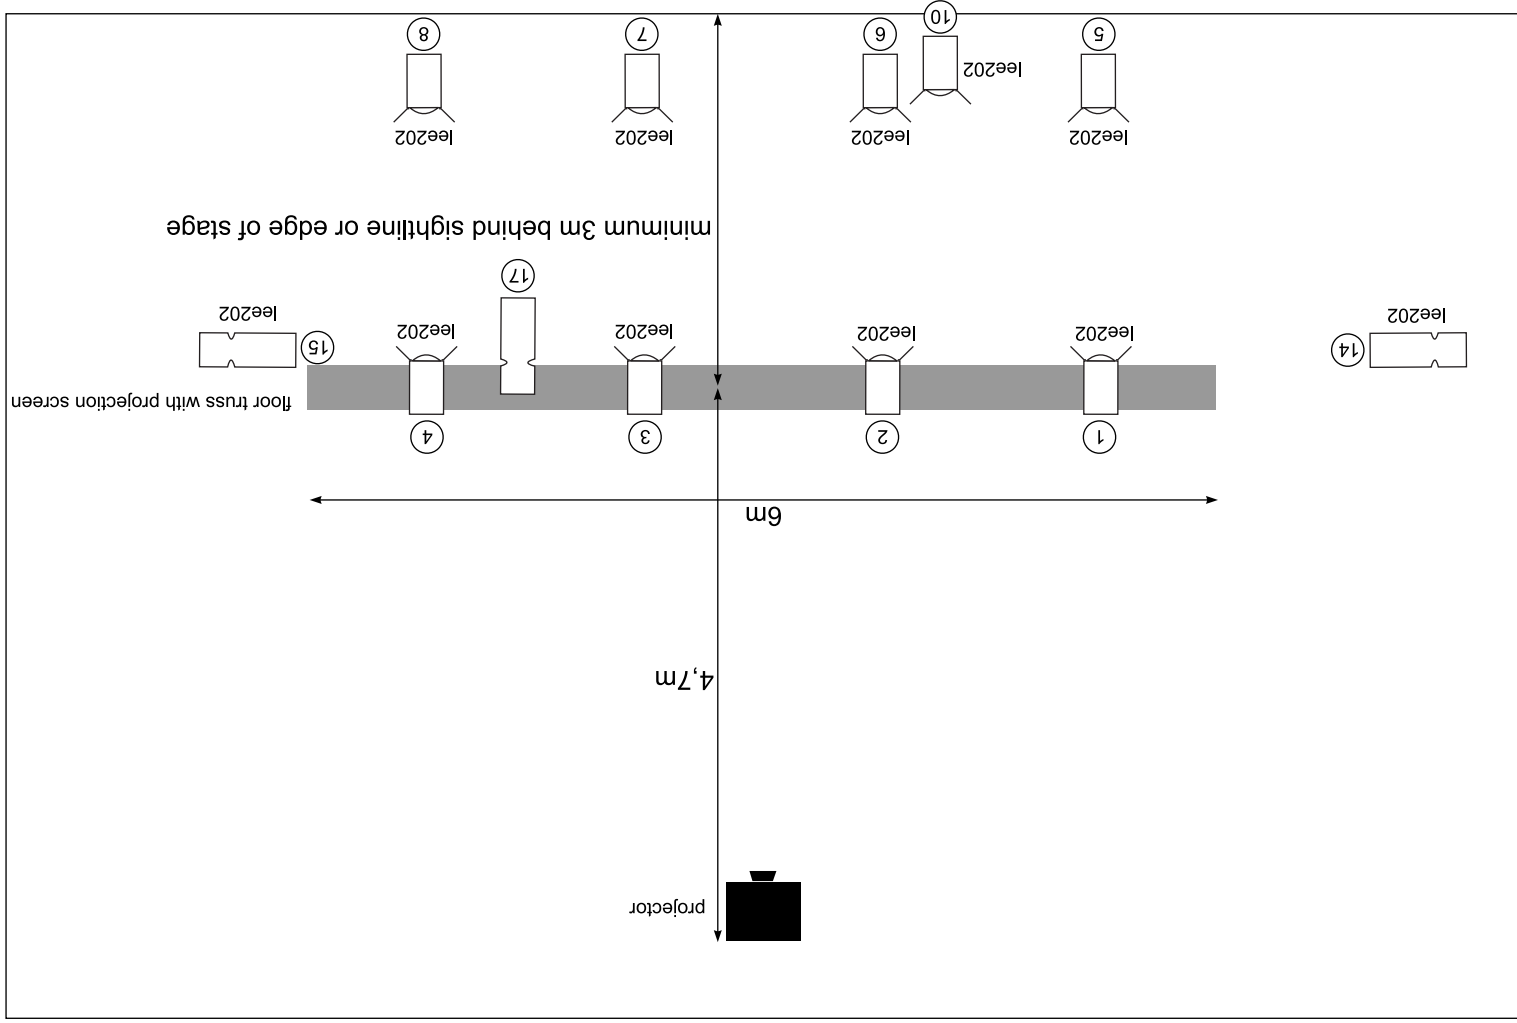

ATTENTION!!

There will be projection behind and just above the bed with the television.

Therefore people on the right seated beneath the stage, will miss an important part of the image.

In this case it is advisable not to sell these seats. If needed send me the plans of your venue.
